### **DETAILED ACTION**

1. ***Election/Restrictions***

2. Applicant's election without traverse of Group I, claims 1-18 in Paper No. 031704 is acknowledged.

### ***Priority***

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Drawings***

4. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters "14" and "15" have both been used to designate gas spray unit (paragraph [0135], and [0130]. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6 contains the trademark/trade name Teflon. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe the material used to make the gas injection tube and the gas guard and, accordingly, the identification/description is indefinite.

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

8. Claims 1-2, 5, 7-8, 10-12, 15-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Miyazaki (6,444,047).

Miyazaki discloses a method and apparatus for cleaning a semiconductor substrate. The reference discloses the rotary wafer chuck, de-ionized water supply means, a gas spray unit and gas supply means, and dry gas supply means as claimed. The reference discloses the gas guard (205) as claimed. See Fig. 3, the abstract, col. 2, line 22- col. 4, line 22, col. 5, line 7- col. 6, line 33, col. 6, line 66- col. 10, line 35 and the document in general.

***Claim Rejections - 35 USC § 103***

9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

10. Claims 3, and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Miyazaki (6,444,047).

Miyazaki discloses all limitation with the exception of the gas guard comprises a frusto-conical portion as claimed.

It would have been obvious for one skilled in the art to choose the gas guard in the shape of frusto-conical portion to obtain the claimed apparatus. This is because it is a design choice. One skilled in the art would adjust the shape and design of the gas guard to reduce splashing and sputtering of the cleaning fluids.

### ***Conclusion***

11. Claims 4, 9, 14, and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
